ASSET LANDSCAPING 2011

We are very proud of the Asset Landscaping Team for their accomplishments in 2011.

Starting off the year in Ranking Arizona Magazine by placing second in the state for Landscape Contractors. Following that, Asset Landscaping was again featured in a national publication. This time the feature was in Turf Magazine.

More recently we moved to a much larger facility enabling a more efficient operation and much more modern facility. Keeping our equipment out of the weather translates to less down time when servicing your property.

Last month Asset Landscaping was awarded the Excellence in Landscaping Award by the Arizona Landscape Contractors Association. This award was given out in one of the most competitive commercial maintenance categories with several entries this year. Even more exciting is that Asset Landscaping also won the Best Sustainable Landscape Management Award! This put us head to head with every other entry and Asset Landscaping came out on top!

Asset Landscaping worked very hard this year and the results are clear. If you are interested in quality, sustainable landscape management, Asset Landscaping tops the list.

If you are a manager or owner and concerned about quality landscape management, Asset Landscaping has the proven track record to keep your landscaping in shape and save you money through sustainability efforts.

THIS MONTH IN LANDSCAPING

On our web site at www.AssetLandscaping.com, you will find a link to our landscape planner outlining areas that are common to focus on each month. Also check out the archived newsletters for additional timely information. Asset Landscaping is often requested to provide articles for local, regional and national publications. Many of these are archived on our Newsletter page as well. Please contact us if you would like an article for your publication.

We hope everyone had a wonderful and safe Thanksgiving and we welcome you to the month of December!

This month is when the winter turf can be treated for winter weeds.

This application is affordable and very effective at reducing those winter weeds that came up during seed germination. We have sent proposals for most of our winter turf customers however if you would like to have your property treated, please let us know.

The Red Bird of Paradise have been renovation pruned for winter and Lantana will be pruned back smaller to not look so back yet insulate the roots. January more species will be selectively renovation pruned with the majority of them pruned in late February.

We mention this every winter but winter time is when it is less expensive to have granite top dressed. In the heat more breaks are needed and people are not able to work as fast. Work smart and top dress your granite in cooler weather!

February is Olive tree spraying month. Timing is critical for this to be effective so get your orders in soon! We are providing proposals to our customers but if you would like yours treated, let us know!

It is time to think about 2012 spring planting and fertilizations too.

~ BACKFLOW INSPECTIONS ~

Need your backflows inspected? We can provide that service now! With this service electronic reporting will be included with the backflow serial numbers for your records. Contact us when it is time for your required backflow inspections!

SUSTAINABLE LANDSCAPE MANAGEMENT

Asset Landscaping is one of the first companies to have people certified in Sustainable Landscape Management. The certification is "Certified Sustainable Landscape Management Professional".
